 Affinity Mapping

DEVELOPMENT

Arduino IDE Prototyping
 Basic HTML/CSS

COLLABORATION & WORKFLOW

Canva Notion
 Miro

Hardware

ESP32

ABOUT ME

I'm an Experience Design student with a minor in Marketing, interested in understanding not just how things work, but why people choose them. My work sits at the intersection of design, strategy, and behavior—shaping experiences that are intuitive to use, clear in what they communicate, and grounded in real user needs.

EXPERIENCE

Strategy & Design Intern

BSNL Project · 8 Weeks

Mentored by Mr. Piyush Relan, Managing Director, TIAA India

Worked on reimagining BSNL's customer experience through research-led insights, combining strategy, storytelling, and user-centered design to create more engaging and accessible solutions.

INDUSTRY IMMERSION

Philips Healthcare

1 Week

Industry Immersion Program

Gained first-hand exposure to healthcare systems by observing workflows, user interactions, and the role of medical devices within real-world clinical environments.

ACADEMIC PROJECTS

SEMESTER 5

RegiSmart WORKFLOW AUTOMATION | AI SYSTEMS

- Built an AI-powered event registration workflow using n8n.
- Automated onboarding, approvals, RSVP tracking, and ID generation.

SolarLink SYSTEMS DESIGN | SERVICE INFRASTRUCTURE

- Designed future-ready service concepts for renewable energy systems.
- Focused on scalability, accessibility, and long-term adoption.

Revela INTERACTIVE PRODUCT | TANGIBLE UX

- Designed a tangible wand system for object-finding through play.
- Used BLE sensing and sensory feedback for interaction.

SEMESTER 4

Raahi UX DESIGN | TRAVEL EXPERIENCE

- Designed a travel app for families exploring offbeat destinations.
- Built intuitive planning flows with emotionally engaging content.

Hushka BRAND STRATEGY | PRODUCT CONCEPT

- Created an IKEA sub-brand for collapsible sleeping pods.
- Explored AI-assisted ideation, branding, and product direction.

SEMESTER 3

VOIA ASSISTIVE DESIGN | INCLUSIVE PRODUCT

- Designed a wearable aid for deaf and mute students.
- Used light and vibration for classroom communication.
